Article 6
Non-discrimination in respect of charges

Each Contracting Party shall ensure that charges that may be imposed by its competent charging authorities or bodies on the airlines of the other Contracting Party for the use of air navigation and air traffic control services, airport, aviation security and related facilities and services shall be set in accordance with the laws and regulations of each Contracting Party and shall not be unjustly discriminatory. 3. The agreed services provided by the designated airlines of the Contracting Parties shall retain as their primary objective the provision, at a reasonable load factor, of capacity adequate to the current and reasonably anticipated requirements for the carriage of passengers and cargo, including mail, coming from or destined for the territory of the Contracting Party which has designated the airline or airlines.

4. The right to take up or discharge on the agreed services international traffic destined for and coming from third countries at a point or points on the routes specified in the Annex to this Agreement shall be exercised in accordance with the general principles of orderly development of international air transport and shall be subject to the general principle that capacity should be related to:

- a) the traffic requirements between the country of origin and the countries of ultimate destination of the traffic; and
- b) the requirements of through airline operations; and
- c) the traffic requirements of the area through which the airline passes, after taking account of local and regional air services.

Article 9 Approval of traffic programmes

The programme shall include in particular the timetables, the frequency of the services and the types of aircraft to be used. The aeronautical authorities shall, if it is applicable, give their decision on such traffic programme submissions within twenty (20) days from the date the airline concerned submits its programme for approval.

2. Such requests for alteration or for additional flights shall be dealt with promptly by the aeronautical authorities.

Article 10 Information and statistics

The aeronautical authorities of either Contracting Party shall supply to the aeronautical authorities of the other Contracting Party, at their request, such information and statistics relating to traffic carried on the agreed services by the designated airline or airlines of the first Contracting Party to and from the territory of the other Contracting Party as may normally be prepared and submitted to its national aeronautical authorities. Any additional statistical traffic data which the aeronautical authorities of one Contracting Party may desire shall, upon request, be a subject of mutual discussion and agreement between the aeronautical authorities of the two Contracting Parties.

Article 11 Prices

1. Contracting Parties shall permit prices to be freely established by the air carriers on the basis of free and fair competition.

2. Prices for international air transport operated pursuant to this Agreement shall not be required to be filed with the aeronautical authorities of either Contracting Party.

3. Without limiting the application of general competition and consumer law in each Contracting Party, intervention by the Contracting Parties may be initiated to:

- a) prevent unreasonably discriminatory prices or practices;
- b) protect consumers from prices that are unreasonably high or unreasonably restrictive due either to the abuse of a dominant position or to concerted practices among air carriers; and
- c) protect airlines from prices that are artificially low because of direct or indirect governmental subsidy or support.

Article 12
Fair competition

1. There shall be fair and equal opportunity for the designated airlines of both Contracting Parties to participate in international air transportation covered by this Agreement.
2. Each Contracting Party shall, where necessary, take all appropriate action within its jurisdiction to eliminate all forms of discrimination or unfair competitive practices adversely affecting the competitive position of the airlines of the other Contracting Party.

Article 13
Commercial activities

1. The designated airline or airlines of each Contracting Party shall have the right to maintain in the territory of the other Contracting Party, within the scope of the laws and regulations in force therein, such offices and administrative, commercial and technical personnel as may be necessary for the requirements of the designated airline concerned.
2. The establishment of the offices and the employment of the personnel referred to in paragraph 1 shall be subject to the applicable laws and regulations of the Contracting Party concerned, such as the laws and regulations relating to the admission of foreigners and their stay in the territory of the Contracting Party concerned. The personnel employed in the offices according to paragraph 1 above shall be granted work permits upon application, regardless of the situation and the development of the labour market.
3. The designated airlines of the Contracting Parties shall be free to sell air transport services on their own transportation documents in the territories of both Contracting Parties, either directly or through an agent, in the national currency. Each Contracting Party shall refrain from restricting the right of the designated airline or airlines of the other Contracting Party to sell, and of any person to purchase such transportation.

Article 14
Taxation and transfer of funds

1. Each Contracting Party shall permit the designated airlines of the Contracting Party:
 - a) to engage in the sale of air transportation in its territory directly or, at the discretion of the designated airlines, through their agents and to sell transportation in the currency of that territory or, at the discretion of the designated airlines, in freely convertible currencies accepted by those airlines;
 - b) to convert and remit abroad, on demand, funds obtained in the normal course of their operations. The conversion and remittance shall be permitted without restrictions or delay at the foreign exchange market rates for current payments prevailing at the same time of submission of the request for transfer, and shall not be subject to any charges except normal service charges collected by banks for those transactions; and
 - c) to pay local expenses, including purchases of fuel, in its territory in local currency, or at the discretion of the designated airlines, in freely convertible currencies subject to the national laws, regulations or contractual provisions of each Contracting Party.
2. Where a special agreement for avoidance of double taxation with respect to taxes on income and capital exists between the Contracting Parties, the provisions of this special agreement shall prevail.

Article 15
Ground Handling

1. Each Contracting Party shall permit the designated airlines of the other Contracting Party when operating in its territory, on the basis of reciprocity and where available, to perform their own ground handling ("self-handling") and, at their option, to have all or part of those services provided by one or more duly authorized suppliers. Where the laws, regulations or contractual provisions of each Contracting Party limit or preclude self-handling, each Contracting Party shall treat a designated airline on a non-discriminatory basis regarding ground handling services provided by one or more duly authorized providers.
2. The exercise of the rights provided in paragraph 1 shall be subject only to the physical or operational limitations resulting from considerations of safety or aviation security at the airport.

Article 16 Aviation Security

1. Consistent with their rights and obligations under international law, the Contracting Parties reaffirm that their obligation to each other to protect the security of civil aviation against acts of unlawful interference forms an integral part of this Agreement. Without limiting the generality of their rights and obligations under International law, the Contracting Parties shall in particular act in conformity with the provisions of the Convention on Offences and Certain Other Acts Committed on Board Aircraft, signed at Tokyo on 14 September 1963, the Convention for the Suppression of Unlawful Seizure of Aircraft, signed at The Hague on 16 December 1970 and the Convention for the Suppression of Unlawful Acts against the Safety of Civil Aviation, signed at Montreal on 23 September 1971 and the Protocol for the Suppression of Unlawful Acts of Violence at Airports Serving International Civil Aviation, signed at Montreal on 24 February 1988, Convention on the Marking of Plastic Explosives for the Purpose of Detection signed at Montreal on 1 March 1991 or any other aviation security convention to which the two Contracting Parties may adhere.
2. The Contracting Parties shall provide upon request all necessary assistance to each other to prevent acts of unlawful seizure of civil aircraft and other unlawful acts against the safety of such aircraft, their passengers and crew, airports and air navigation facilities, and any other threat to the security of civil aviation.
3. The Contracting Parties shall act in conformity with the aviation security provisions and technical requirements established by the International Civil Aviation Organization and designated as Annexes to the Convention to the extent that such security provisions and requirements are applicable to the Contracting Parties; they shall require that operators of aircraft of their registry or operators of aircraft who have their principal place of business or permanent residence in their territory act in conformity with such aviation security provisions.
4. Each Contracting Party agrees that such operators of aircraft may be required to observe the aviation security provisions and requirements referred to in paragraph 3 above required by the other Contracting Party for entry into, departure from, or while within the territory of that other Contracting Party, including, in the case of the Republic of Latvia, European Union law. Under the applicable laws and regulations each Contracting Party shall ensure that adequate measures are effectively applied within its territory to protect the aircraft and to inspect passengers, crew, carry-on items, baggage, cargo and aircraft stores prior to and during boarding or loading. Each Contracting Party shall also give sympathetic consideration to any request from the other Contracting Party for reasonable special security measures to meet a particular threat.
5. When an incident or threat of an incident of unlawful seizure of civil aircraft or other unlawful acts against the safety of such aircraft, their passengers and crew, airports or air navigation facilities occurs, the Contracting Parties shall assist each other by facilitating communications and other appropriate measures intended to terminate rapidly and safely such incident or threat thereof.
6. Should a Contracting Party depart from the aviation security provisions of this Article, the aeronautical authorities of the other Contracting Party may request immediate consultations with the aeronautical authorities of the former Contracting Party. Failure to reach a satisfactory agreement within one month of the date of such request shall constitute grounds for withholding, revoking, limiting or imposing conditions on the operating authorization of an airline or airlines of the former Contracting Party. If required by a serious emergency, either Contracting Party may take interim action prior to the expiry of the month.

Article 17 Aviation Safety

1. Each Contracting Party may request consultations at any time concerning safety standards in any area relating to aircrew, aircraft or their operation adopted by the other Contracting Party. Such consultations shall take place within thirty (30) days of that request.
2. If, following such consultations, one Contracting Party finds that the other Contracting Party does not effectively maintain and administer safety standards in any such area that are at least equal to the minimum standards established at that time pursuant to the Convention, the first Contracting Party shall notify the other Contracting Party of those findings and the steps considered necessary to conform with those minimum standards, and that other Contracting Party shall take appropriate corrective action. Failure by the other Contracting Party to take appropriate action within fifteen (15) days or such longer period as may be agreed, shall be grounds for the application of Article 5 of this Agreement.

3. Notwithstanding the obligations mentioned in Article 33 of the Convention it is agreed that any aircraft operated by or, under the lease agreement, on behalf of the designated airline or airlines of one Contracting Party on services to or from the territory of another Contracting Party may, while within the territory of the other Contracting Party, be made the subject of an examination by the authorized representatives of the other Contracting Party, on board and around the aircraft to check both the validity of the aircraft documents and those of its crew and the apparent condition of the aircraft and its equipment (in this Article called "ramp inspection"), provided this does not lead to unreasonable delay.

4. If any such ramp inspection or series of ramp inspections gives rise to:

- a) serious concerns that an aircraft or the operation of an aircraft does not comply with the minimum standards established at the time pursuant to the Convention, or
- b) serious concerns that there is a lack of effective maintenance and administration of safety standards established at that time pursuant to the Convention,

the competent authority of the Contracting Party carrying out the inspection shall, for the purposes of Article 33 of the Convention, be free to conclude that the requirements under which the certificate or licences in respect of that aircraft or in respect of the crew of that aircraft had been issued or rendered valid, or that the requirements under which that aircraft is operated, are not equal to or above the minimum standards established pursuant to the Convention.

5. In the event that access for the purpose of undertaking a ramp inspection of an aircraft operated by, or, on behalf of the designated airline of one Contracting Party in accordance with paragraph 3 of this Article is denied by the representative of that airline or airlines, the other Contracting Party shall be free to infer that serious concerns of the type referred to in paragraph 4 above arise and draw the conclusions referred to in that paragraph.

6. Each aeronautical authority of Contracting Party reserves the right to suspend or vary the operating authorization of a designated airline or airlines of the other Contracting Party immediately in the event the aeronautical authority concludes, whether as a result of a ramp inspection, a series of ramp inspections, a denial of access for ramp inspection, consultations or otherwise, that immediate action is essential to the safety of an airline operation.

7. Any action by one Contracting Party in accordance with paragraph 2 or 6 above shall be discontinued once the basis for the taking of that action ceases to exist.

Article 18 **Application of laws and regulations**

1. The applicable laws and regulations of one Contracting Party relating to the entry into, or departure from its territory of aircraft engaged in international air services or to the operation and navigation of such aircraft while in the said territory shall apply to the designated airline or airlines of the other Contracting Party.

2. The applicable laws and regulations of one Contracting Party governing entry into, stay in or departure from its territory of passengers, crew, cargo or mail, such as formalities regarding entry, exit, emigration, immigration, customs, currency, health and quarantine shall apply to passengers, crew, cargo and mail carried by the aircraft of the designated airline or airlines of the other Contracting Party, while they are within the said territory.

3. Passengers, baggage and cargo in direct transit across the territory of either Contracting Party and not leaving the area of the airport reserved for such purposes shall, except in respect of security measures against acts of violence, air piracy, as well as smuggling of narcotic drugs, be subject to no more than a simplified control.

4. In case a carried passenger fails to comply with applicable laws and regulations for entry into the country of other Contracting Party an airline is obliged to transport him back on costs of this airline.

Article 19 **Applicability to Charter/ Non-scheduled Flights**

1. The provisions set out in Articles 6 (Non-Discrimination in respect of charges), 10 (Information and Statistics), 14 (Taxation and transfer of funds), 15 (Ground Handling), 16 (Aviation Security), 17 (Aviation Safety), 18 (Application of Laws and Regulations), and 20 (Consultations) apply as well to charter flights and other non-scheduled flights operated by air carriers of one Contracting Party into or from the territory of the other Contracting Party.

2. Paragraph 1 shall not affect national laws and regulations governing the authorization of charter flights or non-scheduled flights or the conduct of air carriers or other parties involved.

Article 20 Consultations

Either Contracting Party may at any time request consultations on the implementation, interpretation, application or amendment of this Agreement or compliance with this Agreement. These consultations, which may be held between aeronautical authorities of the Contracting Parties, shall begin within sixty (60) days of the date the other Contracting Party receives a request in writing, unless the Contracting Parties mutually decide otherwise or unless this Agreement provides otherwise.

Article 21 Settlement of disputes

1. If any dispute arises between the Contracting Parties relating to the interpretation or application of this Agreement, the Contracting Parties shall, in the first place, endeavour to settle it by negotiation in accordance to procedure set by Article 20.

2. If the Contracting Parties fail to reach a settlement by negotiation, they may agree to refer the dispute for decision to some person or body; if they do not so agree, the dispute shall, at the request of either Contracting Party, be submitted for decision to a tribunal of three arbitrators, one to be nominated by each Contracting Party and the third to be appointed by the two so nominated. Each of the Contracting Parties shall nominate an arbitrator within a period of sixty (60) days from the date of receipt by either Contracting Party from the other Contracting Party of a notice through diplomatic channels requesting arbitration of the dispute by such a tribunal, and the third arbitrator shall be appointed within a further period of sixty (60) days.

If either of the Contracting Parties fails to nominate an arbitrator within the period specified, the President of the Council of the International Civil Aviation Organization may at the request of either Contracting Party appoint an arbitrator or arbitrators as the case requires. In all cases, the third arbitrator shall be a national of a third State and shall act as President of the arbitral tribunal. The arbitral tribunal shall reach its decision by majority of votes. In all other respects the arbitral tribunal shall determine its own procedure.

3. The Contracting Parties undertake to comply with any decisions given under paragraph 2 of this Article.

4. If and for so long as either Contracting Party fails to comply with a decision given under paragraph 2 of this Article, the other Contracting Party may limit, suspend or revoke any rights or privileges which it has granted by virtue of this Agreement to the Contracting Party in default.

5. Each Contracting Party shall bear the expenses and remuneration necessary for its arbitrator; the fee for the third arbitrator and the expenses necessary for this one as well as those due to the activity of the arbitration shall be equally shared by the Contracting Parties.

Article 22 Amendments

1. If either of the Contracting Parties desires to modify any provision of this Agreement including the Annex, it should be after consultation in accordance with Article 20 of this Agreement.

2. This Agreement and its Annex may be modified and supplemented by mutual consent of both Contracting Parties. Such amendment and supplements shall be made in a form of separate protocols being an integral part of this Agreement and shall enter into force in accordance with the provisions of Article 25 of this Agreement.

Article 23 Registration

This Agreement and any amendments thereto shall be registered with the International Civil Aviation Organization.

**Article 24
Termination**

Either Contracting Party may at any time give notice in writing through diplomatic channels to the other Contracting Party of its decision to terminate this Agreement. Such notice shall be simultaneously communicated to the International Civil Aviation Organization. This Agreement shall terminate at midnight (at local time of the Contracting Party, which has received the notice) upon expiration of twelve (12) months from the date of receipt of the notice by the other Contracting Party, unless the notice is withdrawn by agreement before the end of this period. In the absence of acknowledgement of receipt by the other Contracting Party, the notice shall be deemed to have been received fourteen (14) days after receipt of the notice by the International Civil Aviation Organization.

**Article 25
Entry into force**

This Agreement shall enter into force on the date of receipt of the later of notifications the two Contracting Parties have notified each other through diplomatic channels that the requirements for its entry into force under their respective internal procedures have been fulfilled.
